

COGENT/OPITO APPROVAL!

COGENT – The Sector Skills Council for Chemicals, Nuclear, Oil and Gas, Petroleum and Polymers

OPITO – A trade mark used by COGENT

“JMS Consultants accredited to new National Standard – February 2005”

“Awarded ‘Approval Outright’ following ‘Monitoring’ Audit – April 2006”

The Authorised Gas Tester Standards - Units AGT1, 2 and 3

form a suite of National Training Standards prepared by COGENT and on 16th February 2005 JMS Consultants became reconfirmed and accredited as the 1st ‘COGENT Approved Centre’ authorised to provide training to these new National Training Standards

OPITO accreditation of JMS Consultants as an Approved Centre originally took effect from December 1995. To complement this accreditation, JMS also received the TDLB D32/D33 Vocational Skills Assessor Award

Unit AGT1, 2, 3 and other industry specific training courses provide the underpinning knowledge and competence assessment for Authorised Gas Testers from many industry sectors who are involved in one or more of the following scenarios:

- (a) Gas Hazards and Hot Work Gas Testing – AGT 2 and 3
- (b) Gas Hazards and Confined Spaces/Vessel Entry Gas Testing – AGT 1
- (c) Inerting and Purging Operations
- (d) Sour Gas (Hydrogen Sulphide) Operations

Over the past 18 years JMS Consultants has provided on-site training courses to more than 7000 engineers and technicians training as Gas Testers at 22 exploration and production oil and gas companies – onshore and offshore, 6 electricity power generators, 2 HM naval dockyards, chemical and shipping companies, tank cleaning and vessel inspection companies – and now these assessed competency courses are delivered to the National Occupational Standard!
